BSC. IN INFORMATION SYSTEMS

YEAR 3.

USER DOCUMENTATION

DASHBOARD

The POLICE STATION MANAGEMENT SYSTEM dashboard contains a user section, where he/she can be able to add record, search for record, update record, save and exit. Each of them performs various activities. When you click on any of them, its redirect to their respective dashboard where you can find the activities which they perform.

- **To add record**

Add record: id, fname, Lname, age, sex, address, height, eye color, crime and police station of a criminal

- **To search for record**

The user can search for record by using the criminal id because it cannot be duplicated.

- **To update record**

A page that will help the user to add record to an existing criminal name.

- **To save and exit**

A button that will help the user to save records of the criminal and then exit is there to take the user away from the system if he/she wants to leave the system.
